1. INTRODUCTION - WELCOME

Greece welcomes you to its iconic and historic event, the Rally of Gods.

One of the oldest and most grueling rounds of the FIA World Rally Championship, the Acropolis Rally, will return for the first time in eight years, reinvigorated and in sync with the challenges of the new era.

For the elders, it's an opportunity to recall some unforgettable moments, while the younger generation will have the chance to get to know a unique country.

A land chosen by the Gods for their home. The birthplace of harmony, democracy, philosophy, justice and the Olympic spirit.

September is probably the ideal month to visit Greece. The summer heat has faded, many visitors are already reminiscing about what they have experienced and the sea is at its best.

Greece combines uniquely the picturesque mountains with the seaside. It's easy to sit under the shadow of a pine tree and overlook the sea.

We are looking forward to welcoming you beneath the Parthenon temple in Athens, the capital of Greece. Then, in the Peloponnese and specifically in the Corinthia region and for two more days, in the city of Lamia in central Greece, where the HQ and Service Park will be hosted.

In a very short distance from Lamia, there are some very popular points of interest, like Delphi (90km), Meteora (140km) and Thermopylae (18km).

Additionally, the special stages of this year's route pass through some locations of unique beauty.

We strongly advise you to choose them for watching the Rally.

Welcome to the Acropolis Rally.
The Rally of Gods.

Deputy Minister of Culture and Sports
President of 2021 Acropolis Rally Organising Committee

All accredited parties and their journalists, photographers and editors are required to adhere to these Guidelines.

16.2.1 ONLINE ACCREDITATION

All international requests from publications, agencies and websites for rally-by-rally or permanent accreditations must be made online at <https://wrc.ams.fia.com/login>

Applications from **Greek** publications and websites for Acropolis Rally must be addressed to the National Press Officer.

First-time applicants (publications / agencies / websites) must register before any application for accreditation can be submitted. Applicants may be asked for a number of documents by email which may need to be supplied in their original form by post. After approval by the FIA, the applicant will receive an email which will give access to the online accreditation system. Only then can an accreditation application be submitted. Please note that the FIA reserves the right to refuse access to the online accreditation system.

After approval, the online accreditation system can be accessed via the FIA website using your chosen ID and password. The online accreditation system will apply for accreditation requests for any event for the 2021 FIA World Rally Championship.

16.2.2 ACCREDITATION PRINCIPLES

Editors of publications, agencies and websites are asked to conform to the following principles to ensure that media accreditation is restricted to professional journalists and photographers.

The FIA considers the "Media" pass to be a working tool to be used only by bona fide members of the press. Publishers, marketing personnel, sub-editors, staff of the publication's secretariat, etc. cannot be accredited as Media.

The FIA only accredits publications:

- a) with a minimum circulation whose size and quality fulfil the criteria of the FIA;
- b) with a format and quality which fulfil the criteria of the FIA;
- c) which are on sale to the public via retail outlets (trade, club or internal company magazines will normally not be accredited). However, at the sole discretion of the FIA, and where the quality and circulation criteria justify their consideration, such magazines may be eligible for accreditation on a case-by-case basis.

TV and radio broadcasters, and any electronic media wishing to broadcast moving images, must send their request to accreditation@wrc.com

Under no circumstances will advertising, public relations agencies or similar companies and organisations be accredited as media, nor will the Organisers issue any accreditation to representatives (press officers or otherwise) of sponsors, suppliers, engine suppliers, teams, drivers, etc.

The FIA WRC Media Delegate may accept requests from teams with priority drivers for the accreditation of press personnel, with a maximum of one person per team.

The FIA will only accredit press from outside the country in which the event is held. National press must apply to the National Press Officer (e.g. Greek press applying for Acropolis Rally should apply to the National Press Officer, while press from countries other than Greece should apply to the FIA).

FIA Permanent Credential Holders requesting a Substitute and/or an Additional pass, must apply to the FIA using the online system.

The central and local offices of the major international press agencies (AP, AFP, Reuters, ANSA, UPI, DPA, LUSA, BELGA, JIJI, KYODO, EFE, Press Association, SAPA, Australian AP, APA, etc.) will always be accredited by the FIA.

Websites

Internet accreditation is intended for professional stand-alone internet editorial/news coverage only. It is not to be used for any other purpose, including but not limited to public relations, promotional, commercial or entertainment use.

A maximum of one representative journalist per website per event may be accredited.

16.2.3 ACCREDITATION CRITERIA

Publications and agencies

The FIA will allocate annual permanent media accreditation to publications intending to publish reports for every FIA World Rally Championship event during the season (please see paragraph 6 below).

Press passes can also be allocated on a rally-by-rally basis to general news, specialist, business and lifestyle consumer publications that do not intend to publish conventional rally reports but whose coverage is considered to be of promotional benefit to the sport.

Exceptionally, a maximum of three representatives (journalists and/or photographers) per publication may be accredited for any one round of the FIA World Rally Championship. Agencies are subject to the same requirements as publications.

All applicants must fulfil the following basic criteria:

Coverage

For a daily newspaper, a substantial amount of coverage for each event is required. For example, an introductory article in the Thursday edition, follow-up articles in Friday, Saturday and Sunday editions, plus a rally report in the Monday edition.

For a weekly or monthly publication, a substantial amount of coverage for each event is required and a major portion of the overall content should be on the subject of WRC.

Publications or agencies applying for a rally-by-rally photographer accreditation must supply evidence of independent coverage of a minimum of 15 pictures per pass issued at each event they have been accredited for in the previous year's Championship.

Quality

The highest standards of fairness and accuracy are expected as a minimum quality requirement from the press.

Circulation

Accreditation decisions are based on the relative media market in the country of the applicant. As such, the usual minimum circulation for a national weekly or monthly publication is 20,000 copies. For a national daily, the minimum circulation is 50,000 copies.

Freelance journalists must apply for credentials via their own agencies. The onus is on the freelance applicant to prove the supply of regular stories to at least three publications meeting the FIA Accreditation Criteria.

Photo agencies must be able to prove that the pictures have been regularly sold to publications matching the FIA criteria and have been paid for at the normal commercial rate. A publication must be able to prove that the pictures published are the original work of the publication's accredited photographer.

Websites

To be eligible for consideration for Internet Accreditation an applicant must register online and comply with or fulfill (as the case may be) the following Accreditation Criteria.

It should be noted that only journalists will be granted website accreditation and only one representative per website will be accredited.

The applicant must be a professionally-run website dedicated to reporting on the Championship and its events or a professionally-run general news or sports website with a dedicated Championship section. In each case all and any coverage of the Championship must be free of charge to the public.

The applicant must submit satisfactory evidence of publication on the website of news coverage of each Championship event in the previous Championship season, also with the dates of publication, correctly bylined.

Please note that only coverage of Championship events will qualify for consideration. General feature articles that are non-event specific will not qualify.

The applicant must undertake to publish for each round of the Championship in the season in which Accreditation is sought as follows:

- i. at least one news story (of 250 words or more) on each of the Thursday, Friday, Saturday, Sunday and Monday;
- ii. at least one feature article (500 words or more) for each event.

The representative journalist must be (i) a full-time professional journalist with a national press card (or equivalent) and (ii) must be employed or engaged by the website as a journalist, wholly or primarily for the coverage of the Championship.

The website must maintain a clear "contacts" section with a link from the website homepage and which must contain full contact details for the website including a full postal address (PO Boxes not accepted), telephone and fax numbers, email address; and (ii) all contributing journalists must be named either on their articles or elsewhere on the website, photographs must be accompanied by a photographer's credit and all sources must be credited in accordance with editorial best practice.

The website must have a suitable written Privacy Policy, a Right to Reply/Complaints Policy and otherwise comply with all laws, regulations, guidelines and good practice relating to the operation of a website.

The applicant must respect intellectual property rights of the FIA and third parties. This shall include the strict prohibition on the taking of any moving picture images, sound recordings, use of trademarks, title or logos or the transmission of certain kinds of results as further set out in the Accreditation Agreement. If any pass holder is found producing action moving images of any kind of the Event (or any part thereof), their accreditation will be withdrawn and the pass holder will be not be admitted to any major FIA championships for the foreseeable future.

The FIA will allocate Internet Accreditation taking into account the above criteria in order to ensure that Championship coverage on the Internet is carried out responsibly and that coverage is as widespread as possible. Please note that due to the limited space available for media at the Championship events, compliance with the above cannot guarantee Internet Accreditation.

- As of May 14th, travellers arriving in Greece are required to have a negative PCR certificate from a testing laboratory, for a Covid-19 test taken no later than 72 hours before arrival.
This test is mandatory for all travellers (including children over the age of 5), regardless of the epidemiological situation in the country of departure.
- Proof of a negative test is not required however for all travellers that have completed their vaccination (i.e., 14 days have elapsed since the last vaccination, depending on the doses required) and hold a vaccination certificate.
