1. INTRODUCTION - WELCOME

Dear rally friends,

Greece welcomes you to the EKO Rally Acropolis, which for the third consecutive year will be held at the beginning of September, in the wake of the Greek summer.

Having inherited the remarkably successful events of the two previous years, our goal for 2023 is for the EKO Rally Acropolis to "color" the FIA World Rally Championship with its unique character and to give participants and spectators unforgettable moments, connected to Greece.

This year is a historic milestone for our national event. The Acropolis Rally celebrates its 70 years of history, during which it "grew up" and gained its international recognition. Seventy years of history, heritage, evolution, and innovation.

On the occasion of this milestone, in the period leading up to the race, events will be organized that will highlight its history and honor its protagonists, while actions will be taken with the aim of sharing road safety with as many of our fellow citizens as possible.

In the competitive part, the EKO Rally Acropolis 2023 will be developed into a four-day event in the Peloponnese and Central Greece, based mostly on the special routes used in the previous two years, but with a new composition. Special routes that have been loved by competitors and spectators, such as Pavliani, as well as routes inextricably linked to the race, such as Karoutes and Elatia, have returned to this year's layout.

More than 300 kilometers will highlight the winner of the year which is the 10th round of the Championship, honoring its history, and will start under the Sacred Rock of the Acropolis on the evening of Thursday 7 September. The focus of the EKO Rally Acropolis will be Lamia again this year, where the Race Center and the Service Park will once again be hosted, while the crews spending the first night in Loutraki.

With the experience of the past two years, the unwavering support of our sponsors and local authorities, as well as the excitement of celebrating 70 years of racing history, we hope that you, us, and all the fans of the sport will have the pleasure to enjoy a match worthy of its great name.

Welcome to EKO Rally Acropolis 2023!

Lefteris Avgenakis
Deputy Minister of Culture and Sports
President of the Organising Committee of EKO Acropolis Rally

1.1 Environmental Policy

EKO Acropolis Rally is committed to the continuous improvement of its environmental performance in compliance with the FIA's sustainability programme and its Environmental Accreditation Framework.

2022 was marked with a significant distinction for WRC EKO ACROPOLIS RALLY.

FIA awarded the Rally with the 3 stars environmental accreditation as it is described in the Federation's Environmental Accreditation Programme.

The "3 stars" are the result of a systematic effort undertaken by the Organizing Committee and the stakeholders of the Rally, that started in 2021, in order to "lighten" its environmental footprint.

The top management is keen in advancing the event's environmental performance and safeguard this distinction for 2023 as well. In this direction, the enhanced implementation of a formalized Environmental Management System as well as the application of the Environmental Checklist before, during and after the event will contribute to fulfilling our environmental commitments.

Following the 17 sectors highlighted by FIA guidelines, WRC EKO ACROPOLIS RALLY 2023, is focusing amongst others, in the environmental awareness raising of all the stakeholders, the highest possible protection of the natural environment as well as the waste management of the event which also included the repurposing of the safety nets that became obsolete during the 2022 WRC EKO ACROPOLIS RALLY.

The continuation of this circular economy flagship programme in 2023, is showcasing the Rally's innovative aspect not only within the Greek territory but internationally.

We strongly believe in the solid partnerships we have established with the regional and local authorities. Their significant involvement in the Rally will reduce its environmental footprint and act as a multiplier effect to promote our messages for environmental protection in the local communities.

In the 2023 edition of the WRC EKO ACROPOLIS RALLY, apart from continuing the actions undertaken during the past years, we will focus on undertaking steps to calculate and reduce the event's carbon footprint. The focus area will be the Service Park and the coverage of the organizational transportation needs.

The role of the sponsors, supporters and suppliers of the event in advancing the environmental sustainability standards is recognized and they will systematically be asked to support the environmental targets of the event.

7. FUEL

7.1 General

All priority drivers must use the FIA fuel. The supplier appointed by the FIA is P1 Racing Fuels.

7.2 Order Procedure / Cost of FIA Fuel

All competitors are responsible for settling directly with the supplier, all matters relating to supply and payment.

All orders are placed [online](#) only.

Competitors may find the order procedure manual for the P1 Fuels new order platform at www.acropolisrally.gr under "Competitors/Forms"

The cost of the fuel including refuel services is 6.57€/l + VAT per litre, dispensed into rally cars.

Preferred payment method is by credit card (Visa or Mastercard). Bank transfer is also available, but a copy of the transfer must be sent to Fuel Supplier as soon as possible.

Fuel orders must be placed no later than ***Tuesday, August 8.***

For any further information please contact info@p1racingfuels.com

The option of using pump fuel for non-priority drivers is very difficult in this year's itinerary at least in two road sections where fuel stations do not exist. All possibilities are considered by the organizer and further information will be communicated in the Supplementary Regulations.

8. TYRES

8.1 Tyre Supplier

The FIA has nominated the following company for 2023:

Pirelli Pneumatici S.p.A.

Viale Piero e Alberto Pirelli n. 25

I- 20126 Milano Italy

www.pirelli.com

Contact: Terenzio Testoni

Tel: +39 335 1227136

E-mail: terenzio.testoni@pirellif1.com

Tyres orders must be placed no later than ***Tuesday, August 8.***

9. IMPORT OF VEHICLES & SPARE PARTS

9.1 Teams whose country of origin is a member of the EU, but enter Greece from a non-EU country, must possess the following documents: Document No 3 of the Export Declaration (EDE 2 issued in 4 copies) or the document INF 3. These documents are issued when an EU vehicle leaves an EU country for a non-EU country.

When arriving in Greece the Greek custom authorities will issue a temporary Import Declaration that will be requested upon exiting the country.

- 9.2 There are no custom formalities for Teams whose country of origin is a member of the EU and enter Greece from an EU country.
- 9.3 Teams or private competitors whose country of origin is NOT a member of the European Union including the UK are required to provide the Greek customs with either:
- A CARNET ATA, which simplifies custom formalities or
 - Teams must bring along a detailed list, signed by the accompanying person in charge, in two (2) copies.

This list should include:

1. Full name/address of the person in charge. If a company owns the vehicles, this list should include the details of the company and must be signed by the authorised person.
2. Full name of each driver of each vehicle.
3. Value of all items to be imported.
4. Estimated period of stay in Greece.
5. Commercial description of all equipment carried in each imported vehicle (details about each vehicle, number and type of tyres, spare parts etc).

Custom authorities will legalize both copies and will issue a V.F.P card, (VEHICLE FREE PASSAGE), for Greece in two copies. One of these copies, attached to the legalized list, will be held at the customs office, the other copy will be delivered to the person in charge.

So that vehicles and equipment be released from customs, upon departure from Greece, the person in charge must hand in these two documents to the customs authorities, which will verify that all items imported are actually exported, even if they are damaged or destroyed, avoiding thus the payment of duties or taxes.

In the case that their vehicle(s) is (are) registered in a country of the EU then a document showing that the car or vehicle has been hired for the rally signed by the owner will be also requested.

In all cases, the vehicles' original registration documents must be available.

- Random checks may be carried out by customs officers to ascertain those vehicles and the onboard equipment are included in the respective lists.

10. HELICOPTERS

10.1 Registration Procedure / Information

Helicopter coordinator is Loris Meletopoulos.

He may be contacted by e-mail: loris@elem.gr or mobile: +30 6934 590 504.

The procedure to be followed is that each interested party must duly fill in the application form, which will be available at www.acropolisrally.gr and must be sent to the organisers at the latest by ***Monday, August 7***. The organisers will forward all applications to the Helicopter Coordinator.

The registration fee for each helicopter is € 2000 which must be paid by ***Wednesday, August 9*** to the following bank account:

Bank details: ATTICA BANK
Address: 23 Dionysou str., 15124 Marousi, GREECE
Account name: ORGANOTIKI EPITROPI DIORGANOSEON MICHANOKINITOU ATHLITISMOU
Account number: 85186817
SWIFT/BIC CODE: ATTIGRAA
IBAN: GR8001603660000000085186817

24% VAT will be added, however if the applicant has a valid EU VAT Number, he is entitled to VAT exemption. Invoice details of each applicant must be submitted to the organisers.

Only helicopters registered with the organisers will be permitted to fly within the airspace and land at the service areas or other WRC sites during the rally.

To get permission to fly in the event's airspace, all helicopters' pilots must attend the briefing on ***Thursday, September 7***.

All participating helicopters, regardless of their nationality, must have the required by the Hellenic Civil Aviation Authorities (H.C.A.A), documents that verify the airworthiness of the aircraft and must also be fully insured (i.e. certificate of airworthiness, certificate of registration, hull insurance, pilot insurance etc).

E-mail: Miguel.Fonseca@wrc.com

At the Event the Accreditation Office and the Media Centre will be located at the HQ building, Lamia Trade Fair.

16.2 Media Accreditation & Media Attendance

16.2.1 Press Accreditation Guidelines

The National Press Officer will only accredit the publications / small national agencies (journalists and photographers), websites and radio stations of Greece. Any other applicant must apply directly to the FIA Communications Department using the online international rally-by-rally accreditation system at <https://wrc.ams.fia.com/login>

Greek press agencies as well as the local offices of all major international agencies will be accredited directly by the FIA (e.g. the ANA-MPA must be accredited by the FIA for all rallies including the EKO Acropolis Rally, etc).

The National Press Officer of EKO Acropolis Rally will accredit the major publications / small national agencies of the country, permitting a maximum of three passes per publication/agency after having made a very strict selection of the accredited media. Three passes will exceptionally be issued to publications/agencies confirming a substantial amount of on-event coverage. A maximum of one pass (journalist only) will be issued to websites (photo tabards are not issued to websites).

16.2.2 General

- Accreditation requests for nationally based media must be sent no later than ***17 August***.
- International media (news and photo agencies, print and web media) based outside of Greece and national news agencies must apply through the FIA AMS platform: <http://wrc.ams.fia.com/> no later than ***24 August***. Applying media outlets are required to upload a formal application letter signed by the Chief editor of the publication or agency, as well as recent proofs of publication of the journalist or photographer to be accredited. No document should be sent by email.
- International radio and TV media must apply through WRC Promoter: accreditation@wrc.com
- Media personnel of teams competing in the EKO Acropolis Rally must apply through WRC Promoter: accreditation@wrc.com

16.3 Accreditation Criteria

Accreditation recommendations are made by the National Press Officer, and the FIA WRC Media Delegate will give final approval according to the following principles and procedures:

- Respect for the accreditation deadline
- Compliance with the requested elements of the procedure (formal request on headed letter paper signed by the editor or senior member of staff, a sample of the publication (preferably including previous WRC coverage), examples of previous WRC coverage and a copy of the representatives' press card)
- Commitment of coverage devoted to the event
- Match with circulation and/or quality criteria

Additional information can be found in the media section of www.fia.com.

If a decision is disputed, an individual application will be referred to the FIA Director of Communications for a final decision.

The FIA liaises closely with the National Press Office and National Sporting Authorities to confirm the validity of a given application.

Publications must be available to the public via retail outlets (trade, club or internal company magazines will normally not be accredited). However, at the sole discretion of the FIA, and where the quality and circulation criteria justify their consideration, such magazines may be eligible for accreditation on a case-by-case basis.

The FIA considers the media pass to be a working tool to be used only by bona fide members of the press. Publishers, marketing personnel, sub-editors, staff of the publication's secretariat etc. cannot be accredited as media.

Media passes can be allocated to general news, specialist, business, and lifestyle consumer publications that do not intend to publish conventional rally reports but whose coverage is considered to be of promotional benefit to the sport. Generally, however, the FIA will not accredit publications less than one-year-old.

Circulation:

- The usual minimum circulation for a national weekly or monthly publication is 10,000 copies. For a national daily, the minimum circulation is 30,000 copies.

Coverage:

- For daily newspapers and websites, a substantial amount of coverage for each event is required. For example, an introductory article on Thursday, follow-up articles Friday, Saturday, and Sunday, and an event report on Monday.
- A substantial amount of coverage for the event is required for a weekly or monthly publication.

Quality:

- The highest standards of fairness and accuracy are expected as a minimum quality requirement from the printed press.

Photographers' applications must follow the same criteria as stated above. Publications or agencies applying for single-round accreditation must supply evidence of independent coverage of a minimum of 15 pictures per pass issued at each event they have been accredited for in the previous year's Championship.

Freelance journalists must apply for credentials via their own agencies. The onus is on the freelance applicant to prove the supply of regular stories to at least three publications corresponding to the FIA accreditation criteria.

Photo agencies must be able to prove that their pictures have been regularly sold to publications matching the FIA criteria and have been paid for at the normal commercial rate. A publication must be able to prove that the pictures published are the original work of the publication's accredited photographer.

The number of photographers' media passes issued for the national media on EKO Acropolis Rally will not exceed 12. Thus, Media will have access to a national pool system at www.acropolisrally.gr of free-of-charge images for editorial use.

Photographers not complying with the above criteria (eg, commercial photographers) must apply for accreditation at accreditation@wrc.com stating the nature of their business.

Once the list with the accredited media has been approved by the FIA WRC Media Delegate, the National Press Officer will confirm the accreditation to each applicant and provide detailed information for the number and type of passes and tabards to be issued, as well as about the mandatory photo briefing for photographers. This will generally take place at 17:00 hrs on the Wednesday before the start of the event, unless aligned differently between the National Press Officer and FIA Media Delegate.

16.3.1 Liability Waivers

The Directors/Senior Editors as well as the accredited person/s of all accredited media must sign the Accreditation Agreement and Individual Acknowledgement which will be attached to every confirmation sent out to the national media.

16.3.2 TV / Radio Media Accreditation

National radio media applications will be coordinated by the National Press Officer. WRC Promoter should be advised of the national radio representatives wishing to be accredited, and a list with any requests for tabards should be submitted to them for approval. Only radio personnel broadcasting live from the end of stages will be allocated tabards.

All television applications must be submitted directly to WRC Promoter: accreditation@wrc.com

Under no circumstances will the National Press Officer/Accreditation Officer accredit any TV outlet without written clearance from the above-mentioned organisation.

20. HISTORIC FACTS (www.visitgreece.gr)

Lamia is the capital of Roumeli and has 46,406 inhabitants. It is built in the place of the ancient town of Lamia on the southern slopes of Othri near Spercheios River. Lamia is the trade, industrial and transit center of the prefecture of Fthiotida.

The first historic reference of Lamia is in 426 B.C. due to the destructive earthquake that caused damages in Thessalia. In the Middle Ages the town name changed to Zitouni. Lamia played an important role in the 1821 Revolution, the principal characters being Athanasios Diakos and Diouvouniotis. The town was liberated in 1832, recuperated the name “Lamia” and became the most prosperous town of Roumeli. Aris Velouchiotis, the leader of the National Resistance movement during 1941-1944, was born in the region of Lamia.

The very heart of Greece

Central Greece, known as Roumeli, is part of the Greek mainland that has been inhabited since antiquity. There are forested mountain ranges, rivers, lakes, rich fauna and flora and remarkable archaeological sites. Visit the archaeological site of Delphi and the Oracle of Apollo, picturesque seaside towns of Galaxidi and Itsea, as well as beautiful Nafpaktos of great historical importance. The lagoon of Messolonghi, the largest Greek wetland, is a natural paradise that includes islets, dunes, forested banks and a rich flora and fauna that provide salt and fish to the locals. But the most precious gift of nature here is bottarga (Greek avgotaracho), one of the few seafood products with a PDO award, a delicacy coming from the eggs of the female grey mullet.

Do you seek the kind of thrill that will pump up your adrenalin? Karpenisi is the ideal destination as there is a multitude of activities for you throughout the year. So, don't waste time, take a trip to the heart of Greek nature and see ravines with impressive waterfalls, dense forested areas and rapid river waters! If skiing or snowboarding is your thing, make a point of visiting Mt. Parnassos and nearby picturesque Arachova Village, the most cosmopolitan winter destination in Greece. Don't miss the well-known archaeological sites at Orchomenos Village, Thebes, Plataiaes, and Chaeronea.
